Affordable Homes

Habitat houses are simple, decent, and affordable. They are modestly sized, big enough to fit the homeowner's needs but small enough to keep construction and maintenance costs low. Habitat uses quality, locally available building materials and home designs that reflect the local climate and culture.

ReNew Athens

ReNew Athens creates affordable rental options for low income residents through the environmentally conscious renovation of existing multifamily units. This program improves housing opportunities for families who earn close to minimum wage while revitalizing local neighborhoods.
